A GROUP OF ORCHIDS IN ONE OF OUR GREENHOUSES

To Our Customers

It is with great pleasure that we submit this Catalogue to our customers, extending to them, at the same time, our cordial thanks for their liberal patronage in the past.

We are now in a better position than ever to please our customers, and will in the future as in the past do our utmost to insure satisfaction.

Although we have only been in business (which embraces the collecting, importing and growing of *Orchids*) since 1896, our business has assumed such proportions that we now find it necessary to publish this Catalogue, which includes the most useful and ornamental Orchids for general culture.

This Catalogue is by no means complete, but represents the bulk of our stock at the date of publication.

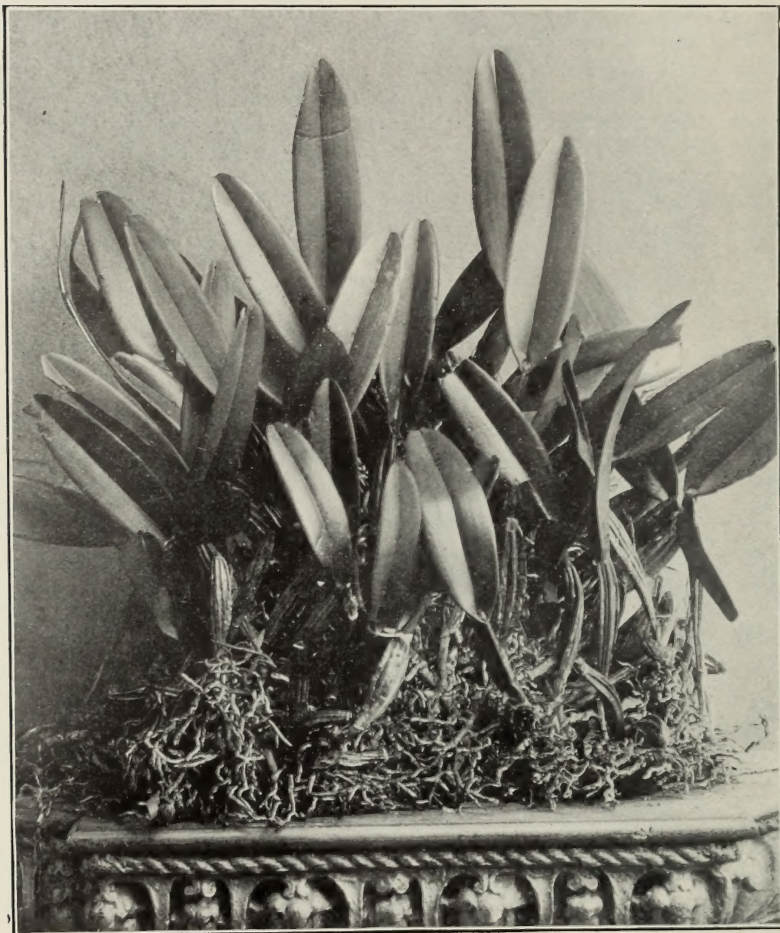

INDIANS BRINGING IN PLANTS FROM THE WOODS.

We are constantly receiving fresh importations of *Orchids* direct from the forests of Mexico, Central and South America, and the East Indies; and upon receipt of such importations our customers will be notified by letters or circulars stating varieties received and prices thereof.

Lager & Hurrell
Orchids
Summit, N. J.

Our place of business is situated on Morris Avenue, Summit, N. J., twenty miles from New York, on the D., L. & W. R. R., where we shall always be pleased to have visitors call on us at any season of the year.

During the months of December, January, February and March we have more plants in flower than at any other time of the year, and anyone wishing to see a grand display of Orchids should not fail to pay us a visit at that time, although at no time of the year are we entirely destitute of flowers.

SPECIMEN PLANT OF CATTLEYA, AS IMPORTED.

We are always ready to furnish our customers with advice at any time and on any subject pertaining to Orchids.

Terms on Which We do Business.

All orders, correspondence or communications of any kind should be addressed to LAGER & HURRELL, Orchid Growers and Importers, Summit, N. J.

Remittances may be made by checks, drafts on New York, money orders on Summit, N. J., express money orders, or by money in registered letters.

Orders from Unknown Parties must be accompanied by remittance or satisfactory references.

It is important that Name and address should be written as plainly as possible, to prevent mistakes.

OUR EXHIBIT AT MADISON SQUARE GARDEN, OCTOBER 21 TO 27, 1901.

AWARDED FIRST PRIZE.

The Sprays on the Standard are *Oncidium Varicosum Rogersii*.

No charge is made for boxes or packing, or delivery at the railroad station; and we guarantee the safe arrival of all goods sent by express, but are in nowise responsible, after they leave our hands, for goods sent by freight.

Complaints, if any, should be made directly on receipt of goods. We promise prompt and just treatment of all claims presented.

Prices in this Catalogue are liable to fluctuations, according to the market.

Our price list of Seedling Orchids may be had upon application.

Orchids.—Cultural Directions.

It is a well acknowledged fact that Orchids produce the handsomest, strangest and most lasting flower of all in the vegetable kingdom.

Most private collections have some representative of this queenly class of plants, while the florists are well convinced of the fact that they must grow Orchids to keep pace with the times, the demand for which is daily increasing. The demand at present is much greater than the supply.

Orchids are the most easily grown plants of any, if a few common-sense points are observed. The cardinal points are: First, plenty of air at all times; during the summer months have the ventilators open night and day. Second, an abundance of light without being exposed to the full sun, which is too strong, but have the glass lightly shaded. Third, an abundant supply of water when watering, permitting the plants to dry out well occasionally so as not to get them sour. Fourth, place the plants from 18 inches to 4 feet at the most from the glass.

A great many Epiphytal Orchids need a season of growth and rest. The growing season commences when the plants begin to grow, when they should receive the maximum amount of moisture.

As soon as the growth is completed the plant should receive less water, so as to ripen the pseudo-bulb and thus insure good flowering. Under no circumstances, however, should water be withheld so as to cause the plant to shrivel. When the buds appear, give plenty of water, so as to develop the flower to perfection. After the flowering season is over the plant generally begins to show signs of growth, when it should receive any potting or rebasketing if needed; if not, then only a top dressing of sphagnum moss, and the plant may be started into growth again. It may be well to mention in connection with the foregoing that there are exceptions to this treatment, our climate being much more favorable for Orchids than that of Europe as a whole, notably for Orchids found on this hemisphere or such species as are found in Central and South America. In particular, the Colombian Cattleyas have scarcely any resting season in their own country, with the exception perhaps of *C. Schroederæ*, on account of the short rainy and dry seasons, both of which are never extreme; and we find here that such Cattleyas as *C. Trianae*, *C. Mendelii*, *C. Chocoensis* and *C. Percivaliana* will finish their growth and start another, sometimes two, all of which will be fully developed and ready for the flowering season. European growers would look indignant at such culture, but here we find it both necessary and profitable.

The best potting material is good fibrous peat and sphagnum moss, with lumps of charcoal and potsherd intermixed.

Firm potting is absolutely necessary, as no Orchid will grow well if it is loosely potted. In repotting care should be taken not to disturb the roots, rather break the pots, while the baskets may be taken apart carefully or set into a larger one and material worked around. Avoid overpotting, and do not disturb the plants unless necessary.

With these general cultural directions any beginner will be able to grow Orchids and reap a rich harvest of their exquisite flowers.

Classified and Descriptive Price List of Orchids.

ACINETA. Strong-growing plants with drooping racemes of showy, fragrant flowers related to <i>Peristeria</i> . Colombia.		Each
A. Barkeri.	\$2 50
A. Humboldtii	2 50
AERIDES crassifolium. This species is one of the most beautiful of the genus of all the <i>Aerides</i> . Spikes long and drooping, with amethyst-purple, deliciously fragrant flowers, produced in May and June. Burmah		
	5 00
A. odoratum majus. A very profuse bloomer. Flowers grow in pendulous, many-flowered racemes, creamy white, blotched and shaded with pale magenta; very fragrant. China and India.		\$3 00 to 5 00
AMBLOSTOMA cernua. A very pretty Orchid, with numerous clusters of yellowish-white flowers. Brazil		2 50
ANGRAECUM modestum. Flowers on peduncles 10 to 15 inches long, pure white, about one inch across vertically. Madagascar and Comoro Islands		\$3 00 to 5 00
A. sesquipedale. This plant attains a height of 2 to 3 feet, with leaves about 1 foot long. Flowers the largest in the genus, 5 to 7 inches in diameter, fleshy and ivory white, with a greenish spur nearly a foot long. Madagascar		\$5 00 to 10 00
ANGULOA. (<i>Cradle of Venus</i> .) Cool house Orchids of stately habit with showy waxen flowers; grow best in pots in a somewhat shady position and require a liberal supply of water while growing. Colombia.		
A. Clowesii. Golden-yellow flowers	2 50
A. Ruckeri. Yellow and crimson flowers	2 00
A. uniflora	2 00
BRASSAVOLA fragrans. A very pretty Orchid, with terete leaves; flowers profusely, with many flowers to the spray. White. May-June. Brazil		2 50
B. glauca. Flowers single on short stems, bright yellow with orange lip and fragrant. February-March. Mexico		1 50
BURLINGTONIA fragrans. A Brazilian species of great beauty, requiring plenty of heat and moisture while growing; flowers in drooping racemes, white, stained with yellow down the lip		2 50
CALANTHE. Terrestrial Orchids of vigorous growth and easy culture; specially recommended to beginners. They thrive in any ordinary greenhouse, and their handsome flowers are produced in midwinter when flowers of this class are most esteemed.		
C. Regnierii.	2 00
C. Veitchii	\$1 50 to 2 00
C. vestita	1 50

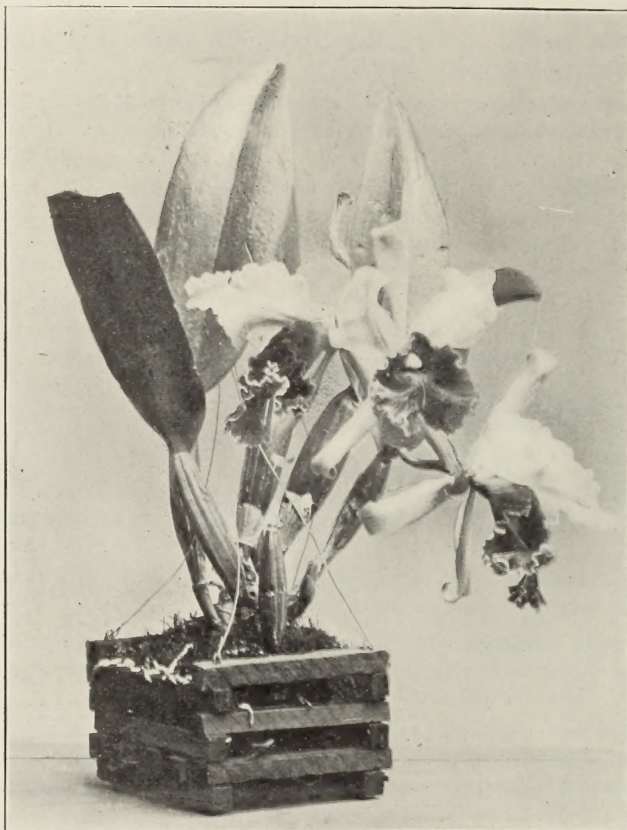

Each

CATASETUM Bangerothi. A magnificent Orchid with large white flowers, on arching spikes. Aug.-Sept. Colombia. Fine strong plants .. **\$10 00**

CATTLEYA.

The Cattleyas rank among the finest and most popular Orchids in existence. The species are all natives of South and Central America, and require a medium temperature, with plenty of light, moisture and ventilation.

CATTLEYA Aclandiae.	Brazil	\$3 00 to 5 00
C. amethystina	"	2 00 to 5 00
C. amethystoglossa.	Brazil	5 00
C. Bogotensis.	Cundinamarca, Colombia	2 00
C. Bowringiana.	Honduras	2 50 to 5 00

CATTLEYA CHRYSOTOXA.
Price, \$5.00 to \$15.00 each.

Each

CATTLEYA chrysotoxa. One of the most beautiful of all the Cattleyas, with yellow sepals and petals. The entire lip is velvety crimson-maroon, with numerous yellow veins radiating from the center. June and July. Colombia \$5 00 to \$15 00

CATTLEYA CHOCOENSIS.
Price, \$2.00 to \$5.00 each.

- C. Chocoensis.** November-December. Colombia. \$2 00 to 5 00
C. " alba. A pure white form of the preceding, \$10 00 to 25 00
C.×Claradiana. (C. Luddemanniana ×C. Intermedia.)
C.× " var. Clio.

Both raised in our establishment at Summit, and flowered for the first time in May, 1899, and were illustrated on page 367 of *American Gardening*, Vol. 1899. They are very attractive hybrids, showing the influence of both parents 25 00

- C. citrina.** Tulip orchid. Differs from other cattleyas in bearing solitary flowers hanging downward. The large flowers are clear lemon-yellow and delightfully fragrant. Flowers during April and May. Mexico \$1 00 to 2 50
C. Dowiana. A grand species, sepals and petals rich Nankeen yellow; lip intense purple, shaded with violet-rose and marked with lines of yellow. Flowers during the summer months. Costa Rica .. 5 00
C. Dubuyssoniana. Brazil 5 00
C. Eldorado. July-August. Brazil 5 00

Lager & Hurrell
Orchids
Summit, N. J.

Each

CATTLEYA Forbesii. A very pretty Cattleya with yellow-green flowers, lip bright yellow on the inner side, streaked with red. Brazil .. \$1 50 to \$2 50

C. gigas. Of this grand Cattleya we claim to have the finest and most distinct type in cultivation at the present day; the blooms of this extraordinarily free-flowering type are much more intense in color than the old type. A number of very valuable hybrids, including the rare C. Hardyana alba, have been flowered out of this type by several of our customers. July-August. Colombia .. \$3 00 to 5 00

Fine half specimens .. 10 00 to 25 00

Very large specimens .. 30 00 to 50 00

C. gigas atropurpurea. Price on application.

C. " Arnoldiae. " " "

C. " Sanderiana .. \$3 00 to 5 00

CATTLEYA GIGAS.
Price, \$3.00 to \$50.00 each.

Each

CATTLEYA Gaskelliana. A fine free-growing and free-blooming Cattleya. Flowers usually pale amethyst-purple suffused with white, but frequently deeper and uniform. May-July. Venezuela .. \$2 50 to \$5 00

CATTLEYA HARRISONIÆ.
Price, \$1.50 to \$5.00 each.

- C. Gaskelliana, Mrs. Hugh J. Grant.** Sepals and petals, white; lip much fringed, white with triangular blotch of purple and lilac; throat, orange-yellow; flowers nearly 8 inches across .. 20 00
- C. granulosa.** Flowers 3 to 4 inches in diameter, 5 to 8 on a peduncle, of yellowish olive-green with red spots; blade of lip white, with crimson papulæ. Brazil .. 2 00
- C. guttata.** Brazil .. 2 50
- C. " Prinzi.** Brazil .. 15 00
- C. Hardyana** (Hybrid). Colombia. Price on application.
- C. Harrisoniæ.** Flowers delicate rosy lilac, 3 to 4 inches across, with several flowers to the spike, are of the finest for cutting. July-August. Brazil .. \$1 50 to 5 00
- C. Harrisoniæ gigantea.** A fine and rare form of the preceding .. 25 00
- C. " superbissima.** Flowers nearly 4 inches across, sepals and petals broad, dark-rose; lip creamy white .. 20 00
- C. intermedia.** Brazil .. 2 00

	Each
CATTLEYA labiata. One of the best known and popular cattleyas, especially valuable for cut flower growing. Our type is noted for its broad sepals and petals and rich colors. Oct.-Nov. Brazil ..	\$1 50 to 5 00
Large specimens	10 00 to 30 00
C. labiata tessellata	25 00
C. Mendelii. Flowers large, varying from white to pale glossy pink; lip, large, spreading, crimson-purple, much crimped at the margin, and with a yellow blotch in the center. One of the finest and of easiest culture, becoming exceedingly scarce in its native habitat. May-July. Colombia ..	\$2.50 to 5.00

CATTLEYA LABIATA.
Price, \$1.50 to \$30.00 each.

C. Mendelii specimens	\$10.00 to 20.00
C. Mendelii. Very large specimens	25.00 to 50.00
C. Mendelii, Quorn House var. Price on application.	

CATTLEYA Leopoldii.	Brazil	\$5 00
C. lobata (Lælia Boothiana).	Brazil	\$3 00 to 5 00
C. Loddigesii.	Brazil	2 00 to 5 00

CATTLEYA MOSSIE.

Price, \$1.50 to \$5.00 each.

C. luteola.	Brazil	1 50
C. Mossiae.	Flowers large; sepals and petals in shades of lilac and rose. Lip large, with purple, much crimped at the margin. April-June. Venezuela.	\$1 50 to 5 00
C. Mossiae Reineckiana.	Price on application.	
C. Mossiae Wagnerii.	Price on application.	
C. Percivaliana.	The flowers are of deep rosy purple color, with richly colored lip of deep crimson, purple and golden yellow. Requires same treatment as Cattleya Trianae. This var. is invaluable for cutting, flowering, as it does, from November to February. Venezuela.	
Fine plants		\$1.50 to 2.50
Half specimens		5.00 to 10 00
Large specimens		15.00 to 35.00
C. Percivaliana alba.	Price on application.	

- Each
- CATTLEYA Percivaliana resplendens.** A large flowered form with the lip magnificently colored; flowers 6 inches across, sepals and petals lilac-red, lip large, margined with lilac, toward the throat deep crimson and toward the margin brilliant red purple. Very distinct from the usual forms of *C. Percivaliana* and the lip is as richly colored as that of any variety of the "labiate section." .. \$40 00
- C. P. spectabilis.** Sepals and petals lilac red, large and well proportioned, lip large and showy, the mid-lobe dark crimson (with a broad border), exceeding $1\frac{1}{2}$ inches in length, the margin crenulate, the same color as the sepals and petals .. 40 00
- C. P. summitensis.** Sepals and petals pale, delicate pink; lip typical. This is a very fine form of exceptional beauty .. 25 00
- C. P. tessellata.** A very pretty form with splashed flowers .. 15 00

C. PERCIVALIANA. See page 11.

Price, \$1.50 to \$35.00 each.

- C. Schilleriana.** Resembling *C. Aelandiae*, but much stronger, with dark rounded foliage; flowers in summer from the young growths, with deep, rosy-colored large flowers, sometimes spotted; lip with darker stripes and shadings with pink margin. Brazil .. \$3 00 to 5 00
- C. Rex.** Very beautiful; white, yellow and crimson .. \$40 00 to 50 00

Each

CATTLEYA Schofieldiana. Handsome and distinct; flowers pale, tawny yellow, flushed with purple and green, the entire surface spotted with crimson-purple. July-August. Brazil \$5 00

CATTLEYA SCHRODERÆ.
Price, \$3.00 to \$5.00 each.

- C. Schroederæ.** Flowers very large and beautiful, almost white, with yellow throat, sweet-scented. Flowers about Easter. \$3 00 to 5 00
- C. Skinneri.** Flowers 4 to 5 inches in diameter, rose purple, disk of lip white, bordered with a broad zone of deeper purple, peduncles 5 to 9-flowered. March-April. Central America 2 50
- C. speciosissima.** Flowers very large, blush-rose; enjoys a light, airy place in the house. Flowers mostly during February and March, although a number of this variety will bloom at almost any time during the year. Venezuela \$1 50 to 3 00
- C. speciosissima lilaciana.** Flower large; entire flower, including lip, dark lilac color 15 00
- C. speciosissima striata marginata.** Sepals and petals lilac, with purple streaks toward the tips; lip purple, splashed with lilac, radiating whitish and purple veins; upper part yellow with purple margin 20 00

CATTLEYA superba splendens. A most beautiful species with fragrant blossoms of a deep rich purplish rose. This species requires more heat than most cattleyas and plenty of water. Summer months. Venezuela and Colombia \$3 00 to \$5 00

CATTLEYA SPECIOSISSIMA. See page 13.

Price, \$1.50 to \$3.00 each.

- C. Trianae.** The most useful orchid in cultivation, flowering in mid-winter, when flowers are most in demand, and remaining a long time in perfection. Flowers, 5 to 8 inches across, white, rose, lilac or purple, shaded and blended. Dec.-April. Colombia .. \$1 50 to 5 00
 Specimens 10 00 to 20 00
 Extra Large Specimens 25 00 to 50 00
- C. Trianae alba.** Price on application.
- C. Trianae Amesiana.** Price on application.
- C. Trianae aurantiaca** 35 00
- C. Trianae Backhousiana.** Fine variety 35 00
- C. Trianae delicata** 35 00

	Each
CATTLEYA velutina. Brazil	\$5 00
C. Walkeriana. A very fine dwarf species, with large rose-colored flowers; lip of a richer rose than the other parts, with a tinge of yellow. Flowers during the winter months, lasting several weeks in perfection. Brazil	2 50
C. Warneri. Flowers large and open, 6 to 8 inches across, delicate rose color, shaded with amethyst-purple. April-May. Brazil	\$2 50 to 5 00

CATTLEYA TRIANÆ.
Price, \$1.50 to \$50.00 each.

	Each
CHONDRORYNCHA Sp. New. Flowers similar to <i>C. Chestertoni</i> , but much finer. Colombia	\$3 00
CHYSIS aurea. Flowers chocolate brown, shaded with yellow. March-April. Mexico	1 50
C. bractescens. Flowers pure white, except lip, which bears blotch of yellow. April-May. Mexico	1 50

CHONDRORYNCHA SPECIES.

Price, \$3.00 each.

C. laevis. A beautiful species, with flowers of yellow and orange; lip blotched with crimson. Summer. Mexico	2 50
---	------

Each

COELOGYNE cristata. Flowers fragrant, pure white, except lip, which is blotched yellow; borne in many-flowered racemes; are of the finest of winter-flowering orchids and of easy growth. January to March.

East Indies	\$1 25 to \$ 2 00
Large specimens	5 00 to 10 00
C. cristata alba	3 00 to 5 00
C. " Lemoniana	3 00 to 5 00
C. " Maxima	2 50 to 4 00

CÆLOGYNE CRISTATA.

Price, \$1.25 to \$10.00 each.

COELOGYNE <i>Dayana</i>	\$5 00
C. <i>flaccida</i>	2 50
C. <i>Massangeana</i>	2 50
COMPARETTIA <i>falcata</i> .	Flowers about an inch in diameter, purplish red, almost crimson. Ecuador, Colombia and Central America							.. 3 00
CYMBIDIUM <i>eburneum</i> .	Burmah and China							.. 5 00
C. <i>Lowianum</i> .	Burmah	\$2 00 to 3 00
C. <i>Mastersii</i> .	India	5 00

DENDROBIUM. A magnificent and very extensive genus of Orchids, naturally varying greatly in habit of growth and form of flowers. The latter are usually large and showy, delicately colored and quite fragrant.

DENDROBIUM FORMOSUM GIGANTEUM.

Price, \$1.50 to \$2.50 each.

DENDROBIUM atro-violaceum.	New Guinea	2 00
D. Cassiope (nobile albiflorum × moniliforme)	5 00
D. chrysanthum.	Flower bright orange yellow, with two maroon spots on the lip, which is orbicular, with fimbriate margin.	India	2 50
D. chrysotoxum.	Flower of a rich golden yellow, with an orange-yellow disk on the lip, the margin of which is fringed.	India	2 50
D. crassinode, syn. pendulum.	A very pretty little plant; flowers white, tipped with purple. Winter and spring months.	Burmah	2 50
D. Dalhousieanum.	Flowers 4 to 5 inches across, pale Nankeen yellow, veined and tinted with rose and with a large maroon-purple blotch on each side of the lip. Spring.	Burmah	2 50

DENDROBIUM NOBILE.

Price, \$1.50 to \$2.50 each.

Each

DENDROBIUM densiflorum. A magnificent free-flowering orchid. Sepals and petals rich bright yellow, with deep orange-colored lip. March-April. India \$3 50 to \$5 00

D. formosum giganteum. Flowers in clusters, ivory white, very large; lip blotched with yellow. October-December. Burmah \$1 50 to 2 50

D. moschatum 2 50

D. nobile. Flowers 2½ to 3 inches across, very fragrant, white and shades of purple. May-July. India \$1 50 to 2 50

D. nobile Cooksonianum 5 00

D. nobile nobilium 5 00

D. nobile virginalis \$5 00 to 10 00

D. phalaenopsis Schroederianum. Flowers 2½ to 3½ inches across on slender pedicels; white, flushed with pale rosy mauve, petals purplish mauve; one of the finest for cutting. October-November. New Guinea \$1 50 to 2 50

D. Pierardi 1 50

D. splendidissimum. A handsome hybrid (D. nobile × D. aureum).. 5 00

D. suavissimum. Resembling D. chrystoxum in habit; flowers fragrant, gracefully drooping, 3 inches across and of a rich golden yellow color; lip fringed with a purple blotch striped with crimson. May-June. Burmah \$2 50 to 5 00

D. thyrsiflorum. Flowers waxy white with orange-yellow lip, in many-flowered drooping clusters. Fine for exhibition purposes. May-June. Moulmein \$1 50, \$2 50 and 5 00

D. Wardianum. Flowers 3 to 4 inches across, in twos or threes along the tall pseudo-bulbs sometimes to the number of 40. Sepals and petals white, tipped with purple; lip bright orange, with two eye-like spots of crimson magenta. A species of striking beauty. Feb.-April. India \$1 50 to 2 50

D. Wardianum album \$15 00 to 25 00

DENDROCHILUM (see *Platyclinis*).

EPIDENDRUM ciliare. Flowers fragrant, several in a raceme, greenish yellow, with fringed lip. Colombia and Central America \$1 00 to 2 00

E. cinnabarinum 1 50 to 2 50

E. Godseffianum 2 50

E. macrochilum. Flowers among the largest in the genus; chocolate brown and pale yellow-green; lip white, streaked with pale purple. Colombia and Central America \$1 50 to 2 50

	Each
EPIDENDRUM O'Brienianum. Hybrid between <i>E. exectum</i> and <i>radicans</i> . Flowers brilliant carmine, faintly shaded orange; crest on lip bright yellow	\$3 00 to \$5 00
E. rhizophorum (<i>radicans</i>). Flowers dark orange-red, remaining in beauty for a considerable period, produced in long, terminal racemes. Colombia and Central America. Feb.-April	2 00
E. vitellinum majus. Flowers $1\frac{1}{2}$ inches across, brilliant orange-scarlet, in 6 to 15-flowered racemes, lasting long in perfection. Oct.-Dec. Mexico	\$1 50 to 2 50

DENDROBIUM THRYSIFLORUM. See page 19.

Price, \$1.50 to \$2.50 and \$5.00 each.

HOULETTIA Brockleburstiana. Brazil	1 50
H. odoratissima Antioquiensis. Colombia	1 50
IONOPSIS paniculata. A beautiful, small, free-flowering orchid. Flowers produced twice a year, of a pretty bluish white color, the broad lip having a purple spot on its base. Colombia	1 50

L. ELIA AUTUMNALIS. See page 23.
Price, \$1.00 to \$2.00 each.

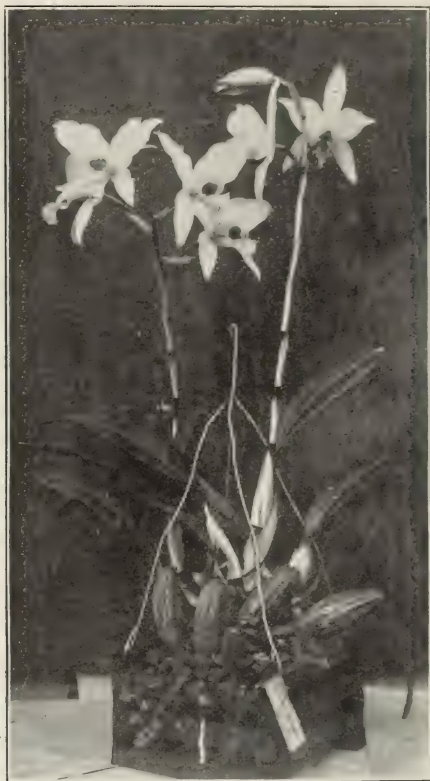

L. ELIA ALBIDA. See page 22.
Price, \$1.25 each.

Each

LAELIA. The *Laelias* are among our finest orchids, and should occupy a prominent place in every collection.

L. albida. Flowers white and pale pink, veined with yellow, on many-flowered tall spikes. November to June. Mexico .. \$1 25 to 2 50

L. ANCEPS, VAR. STELLA.
Price, \$3.00 to \$10.00 each.

- L. anceps.** Flowers 4 inches across on 2 to 6-flowered scapes, often 3 feet high; sepals and petals rosy blush; lip deep purple. November-January. Mexico \$1 00, \$2 00 and 3 00
- L. anceps alba.** Flowers pure white, excepting a shade of yellow in the throat. Price on application.
- L. anceps Dawsonii** \$3 00, \$5 00 and 10 00
- L. anceps var. Sanderiana.** Sepals and petals pure white, with a rose-purple blotch on the front lobe of the lip. December-February. Mexico \$3 00, \$5 00 to 10 00
- L. anceps var. Stella.** Sepals and petals pure white; front lobe of lip white, with rose markings; throat yellow with purple lines. December-February. Mexico \$3 00, \$5 00 and 10 00

Each

- LAELIA autumnalis.** Flowers purple, lip rose and white, with yellow center, on graceful spikes, 2 or 3 feet long; very fine. November-January. Mexico \$1 50 to \$2 50
- L. autumnalis alba.** Pure white, except for a slight tinge of yellow in the throat \$25 00 to 50 00
- L. autumnalis atro-rubens** 2 00 to 3 50
- L. cinnabarina.** Flowers orange-scarlet, with a crispy lip; very valuable for hybridizing. January-March. Brazil \$1 50 to 3 00
- L. crispa.** Flowers much crisped and undulated, 4 to 5 inches across, with white sepals and petals, sometimes tinted with pale purple towards the base; lip veined and reticulated with deep purple. Summer months. Brazil \$3 00 to 5 00
- L. crispilabia.** Brazil 2 00
- L. Dayana.** Flowers 3 to 4 inches across, rose-purple. Brazil \$1 50 to 2 50
- L. Digbyana** (Brassavola). Large solitary creamy white flowers, lip streaked with purple and beautifully fringed; very valuable for hybridizing. Honduras \$3 00 to 5 00
- L. Dormaniana.** Flowers olive-green with light vinous purple; very free flowering. December-January. Brazil 2 50

L. DAYANA.

Price, \$1.50 to \$2.50 each.

- L. elegans.** A magnificent Orchid nearly extinct in its native habitat; very variable in the shades of the flowers from white to pink and rosy purple. Brazil \$15 00 to 25 00

	Each
LAELIA flava. Flowers of a clear yellow, eight to ten in number, on erect scapes and last a long time in perfection. Feb.-March. Brazil.	\$2 50
L. grandis tenebrosa. Flowers 4 to 5 inches across, Nankeen yellow with white lip veined with rose purple. May-June	5 00
L. harpophylla. Brazil	2 50
L. leugheana. Feb.-March. Brazil	2 50

LAELIA PERRINII. See page 26.

Price, \$3.00 to \$5.00 each.

- L. majalis.** One of the finest and most beautiful of the genus; of dwarf habit with one or two-flowered peduncles bearing flowers measuring seven and eight inches across; of delicate lilac, rose lip with white and magenta-purple stripes; requires a rather dry and cool treatment during the winter, with plenty of water during the grading season. Flowers in summer and lasts in perfection several weeks. Mexico **\$1 50 to 2 50**
- L. majalis alba.** A white form of the preceding, of rare beauty. 10 00 to 15 00

LÆLIA PURPURATA. See page 26.

Price, \$2.50 to \$5.00 each.

LÆLIA PRÆSTANS. See page 26.

Price, \$1.50 to \$2.50 each.

- LAELIA Patinii.** A beautiful Orchid rarely seen in collections, very few having been collected. We have only just discovered where it grows and succeeded in bringing to this country a fine lot of plants. The flowers are of a dark rosy color, several on a spike, and similar to Cattleya Skinneri in shape of the flower as well as growth. Colombia \$1 50, \$2 50 and \$5 00 Each
- L. Perrinii.** Sepals and petals rosy purple, tipped with purplish magenta; lip deep crimson. September-October. Brazil \$3 00 to 5 00
- L. praestans.** September-October. Brazil 1 50 to 2 50

LAELIA X NIGRESCENS.

Price, \$12.00 each.

- L. purpurata.** Flowers very large, sepals and petals white; lip very large, rich deep purplish crimson; one of the grandest Orchids in cultivation and a noble one for exhibition purposes. May-June. Brazil \$2 50 to 5 00
- L. superbiens.** Central America 2 50 to 5 00

LAELIA × NIGRESCENS, L. pumila × L. tenebrosa. A pretty dwarf
growing plant of which we have a number to offer. There is a great
variation in the flowers. **\$12 00**

Eac

LAELIA CATTLEYA × G. S. BALL.
Price, \$35.00 each.

LAELIO-CATTLEYA × G. S. BALL, Cattleya Schroderae × Laelia Cinnabarina. This plant was originally flowered and named by Veitch. We do not know how good the original cross is, but this one is a wonderful thing. Our small plants have produced four flowers, on a long scape, about six times as large as *L. cinnabarina* and of as good a color, the paleness of the *C. Schroderae* leaving the bright cinnabar red unadulterated **35 00**

LYCASTE costata. Colombia	Each
	\$2 50
fulvescens	2 50
L. Harrisoniae. Flowers large and fleshy; creamy white with purple lip, yellowish at the base. Brazil	2 50
L. Skinneri. One of the most popular Orchids; bright, free flowering and lasting, thick texture and widely open. The prevailing colors are rose and pink, with deep crimson spots on the white lip. Winter months. Guatemala	\$1 50 to 2 50

LYCASTE SKINNERI.

Price, \$1.50 to \$2.50 each.

MACRADENIA Brassavolae. Colombia	10 00
MAXILLARIA luteo-alba. Colombia	2 50
M. picta. Brazil	1 50
M. tenuifolia. Mexico	1 50

MILTONIA ROEZLI.

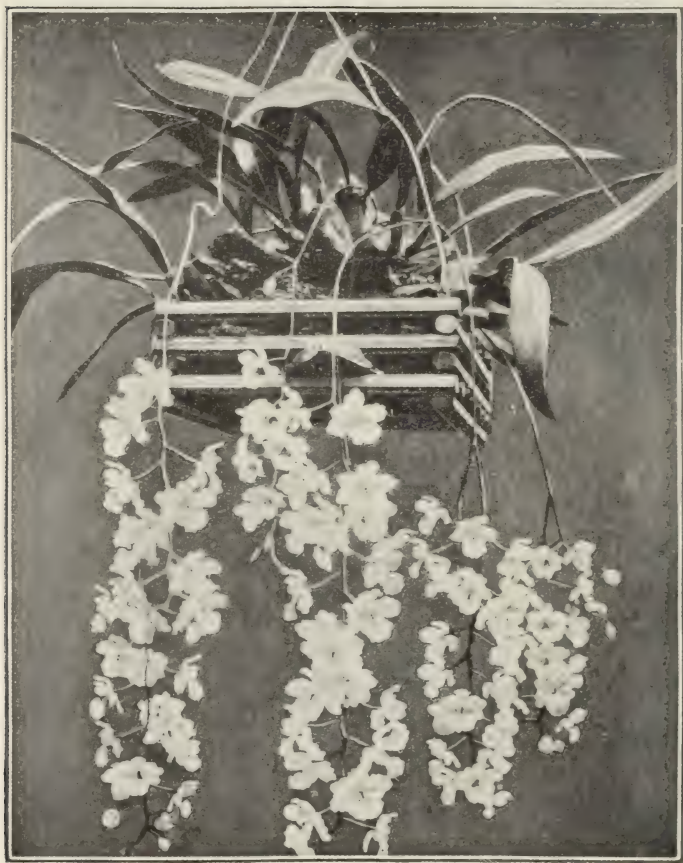

Price, \$2.50 to \$5.00 each.

	Each
MILTONIA candida. Sepals and petals yellowish, spotted with rich brown; lip white, tinged with rosy pink. Sept.-October. Brazil ..	\$2 00
M. Clowesii. Brazil ..	2 00
M. cuneata. " ..	2 00
M. Endresii. A beautiful Orchid, scarce in cultivation, resembling <i>M. vexillaria</i> ; scapes with 3 to 5 white flowers, with a light reddish blotch at the base of each segment. Flowers at various seasons. Costa Rica ..	5 00
M. Roezlii. One of the most beautiful Orchids in cultivation; flowers flat, $3\frac{1}{2}$ to 4 inches across, white, with a purple blotch at the base of each petal and an orange-yellow disk at the base of the lip. This Orchid requires plenty of heat and moisture at all times and should never be allowed to become dry. Western Colombia ..	\$2 50 to 5 00
M. Roezlii alba. Flowers pure white, except the yellow disk of the lip.	\$3 50 to 5 00
M. spectabilis. Flowers nearly flat, 3 inches across, white or cream colored, sometimes tinged with rose towards the base; lip vinous purple with longitudinal veins of deeper shade and margin of white or pale rose. Brazil ..	\$1 50 to 2 50
M. spectabilis Moreliana. Flowers usually larger than the type, of plum-purple, with bright rose-purple lip, deeply veined and reticulated. Brazil ..	\$2 50 to 3 50

Each

MILTONIA vexillaria. A species which ranks among the first of all Miltonias, yet is quite distinct among them all. The slender scapes bear from 5 to 7 large flowers of bright rosy pink. Colombia .. \$1 50 to 2 50

ODONTOGLOSSUM Cervantesii. Flowers $1\frac{1}{2}$ to 2 inches across, white, with chocolate-red tangential streaks around the base. Mexico
\$1 00 to 2 00

ODONTOGLOSSUM CITROSIMUM.

Price, \$1.50 to \$2.50 each.

- O. citrosimum.** This plant produces its long, pendulous spikes of fragrant lemon-colored flowers, sometimes flushed and dotted with pink; fine for exhibitions; remaining perfect for weeks. June-July.
Mexico \$1 50 to 2 50
- O. citrosimum album** 5 00

ODONTOGLOSSUM grande. This fine plant, known as the "Baby Orchid," flowers from September to December. The flowers are very large, cinnamon brown and yellow. It is best grown in pots in fibrous peat and sphagnum in an average temperature of 55 degrees.
Guatemala \$2 50

ODONTOGLOSSUM GRANDE.

Price, \$2.50 each.

- O. Krameri.** A pretty, dwarf-growing species, the whole flower of a charming violet color, the lip being marked and spotted with yellow and purple. Costa Rica \$1 50 to 2 50
- O. nebulosum.** Flowers $2\frac{1}{2}$ to 3 inches in diameter, white, with the central part spotted with red-brown. Mexico \$1 50 to 2 50
- O. Oerstedii.** A small, very pretty species, flowers on erect scapes; pure white, lip white with yellow and a few red spots. Summer months. Costa Rica 2 00
- O. Rossii majus.** Flowers white and brown, spotted with purple. January-March. Mexico \$1 00 to 2 00

ODONTOGLOSSUM Insleayi. Plant and inflorescence as in *O. grande*.

Flowers $2\frac{1}{2}$ to 3 inches across, pale greenish yellow, barred with reddish brown; lip bright yellow with margin of red spots. Mex-

ico \$1 50 to \$2 50

ODONTOGLOSSUM INSLEAYI.

Price, \$1.50 to \$2.50 each.

O. Schlieperianum. Resembles *O. Insleayi* in growth, with stout peduncles bearing racemes of large showy flowers of a pale sulphur-yellow, cross-banded with deep purple. Late summer months. Costa Rica

2 50

ODONTOGLOSSUM ROSSII MAJUS.

See page 31.

Price, \$1.00 to \$2.00 each.

	Each
ONCIDIUM ampliatus majus. Flowers bright canary-yellow with 1 to 2 red-brown blotches, very fine. Colombia and Central America ..	\$2 50
0. Carthaginense. Colombia	2 00
0. Cavendishianum. A showy species of bold habit. Flowers bright yellow, in great abundance and tall branching scapes; sepals spotted with bright chestnut, petals of same color, lip pure bright yellow. Winter months. Mexico and Guatemala	\$1 50 to 2 00

ONCIDIUM CRISPUM.

Price, \$1.50 to \$2.50 each.

0. Cebolleta. Colombia	2 50
0. concolor. A beautiful species with flowers measuring from 1½ to 2 inches across, on radical scapes in long pendulous racemes, pure yellow, March to June, Brazil	2 50
0. crispum. Flowers much crisped and undulated, bright chestnut brown, sometimes spotted and margined with yellow. Brazil	\$1 50 to 2 50

Lager & Hurrell
Orchids
Summit, N. J.

35

Each

- ONCIDIUM cartum.** A beautiful Orchid with flowers of chestnut-brown barred with bright yellow. Brazil. \$2 50
- O. flexuosum.** Flowers golden yellow on long graceful spikes. Brazil. \$2 00 to 3 00
- O. Forbesii.** Flowers $2\frac{1}{2}$ inches across, bright chestnut-brown, with a narrow golden yellow border. Brazil. 1 50

ONCIDIUM HARRISONIANUM.

Price, \$1.50 to \$2.50 each.

- O. Harrisonianum.** A most graceful and pretty species, producing a number of spikes to the plant, with numerous flowers $\frac{3}{4}$ inch across, bright yellow, blotched with red. See illustration. Brazil \$1 50 to 2 50
- O. incurvum.** Flowers white and purple, small, but produced in great abundance on long racemes. Sept.-Oct. Mexico . . . \$1 50 to 2 50
- O. Kramerianum** (Butterfly Orchid). One of the most remarkable and beautiful of all the Oncids; flowers reddish brown, orange-red and bright canary-yellow, beautifully blended. Colombia . . \$1 25 to 2 50
- O. Marshallianum.** A grand Orchid; flowers variable in size and color, measuring from $2\frac{1}{2}$ to 3 inches across; sepals and petals of bright yellow spotted with red-brown, lip, bright yellow. Brazil . . . 3 00
- O. ornithorynchum.** One of the finest for decorative or exhibition purposes. A plant in a 5 or 6-inch basket will frequently produce 12 to 18 drooping spikes with an abundance of rose-colored fragrant flowers. October-February. Mexico . . . \$1 50 to 2 50
- O. papilio** (Butterfly Orchid). Flowers 4 inches across, yellow blotched with red, opening like O. Kramerianum, one at a time on a slender stem. Venezuela 1 50

		Each
ONCIDIUM phymatochilum.	Brazil	\$2 50
0. pubes.	"	1 50
0. Saint Legerianum.	"	2 50
0. sarcodes.	One of the very finest of the genus, with long arching spikes, bearing flowers of a chestnut-brown color, bordered with yellow, lip bright yellow, with a few red-brown spots. Spring.	
	Brazil	\$3 00 to 5 00
0. sphacelatum.	Mexico and Central America	\$1 50 to 2 50
0. tigrinum.	Flowers about 3 inches across, fragrant, bright yellow, heavily blotched with brown, except lip, which is wholly yellow. November-December. Mexico	
		\$1 50 to 2 50
0. varicosum Rogersii.	One of the most beautiful and useful Orchids, with spikes often attaining 5 feet in length and branches bearing an abundance of golden yellow flowers; very fine for decorations and exhibition purposes. October-December. Brazil	
		\$1 50 to 2 50
PERISTERIA elata	(Dove Orchid). A remarkable species of noble habit. The erect flower scapes are produced from the sides of their large bulbs and are from 3 to 5 feet in height. The flowers are waxen white and globular in shape. The inner parts of each flower resemble in outline a dove with outspread wings. Colombia and Central America. \$1 50 to 2 50	

ONCIDIUM ORNITHORYNCHUM. See page 35.

Price, \$1.50 to \$2.50 each.

ONCIDIUM SARCODES.
Price, \$3.00 to \$5.00 each.

PESCATOREA cerina. A beautiful bulbless plant, flowers on peduncles, each producing a handsome flower, some 3 inches across; sepals and petals fleshy, of a pale waxy straw-color, lip yellow, sometimes with a band of deep purple. The flowers last in perfection for a long time. Costa Rica

\$2 50

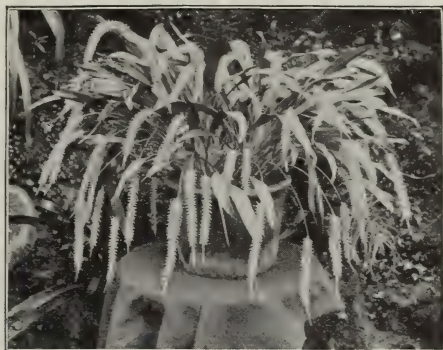

ONCIDIUM VARICOSUM ROGERSII.

See page 36.

Price, \$1.50 to \$2.50 each.

PHALAENOPSIS. These plants grow in the hottest regions of the globe and mostly very near the water where the air is quite moist. They grow best in a temperature of about 70 degrees, in baskets filled with moss and charcoal. The flowers are extremely beautiful. Philippine Islands.

	Each

Z. maxillare var. Gautieri. A very beautiful var.; flowers 2 to 3 inches across, with bronzy brown and violet purple; labellum violet blue, sometimes spotted and striated with deeper blue	
	5 00

SAN FRANCISCO, CAL., Jan. 6, 1902.

MESSRS. LAGER & HURRELL,

Gentlemen:—The plants arrived in good order and were first-class in every respect; indeed, they were much finer and larger plants than I expected to receive.

CHAS. B. BRIGHAM.

CYPRIPEDIUM LAWRENCEANUM.

Price, \$1.50 to \$2.50 each.

CYPRIPEDIUMS. One of the most beautiful, interesting and varied genera of the Orchid family. The colors are rich and pleasing, and combine well with anything with which they are used.

The flowers last a remarkably long time in perfection, and they are also the easiest of all to grow, all of which recommends them to every grower of plants.

Pot culture is preferable, and the material should consist of fibrous peat and sphagnum moss, with plenty of drainage. Cypripediums do not require any resting season, and therefore should be kept moist all the year round. A temperature of 55 to 65 degrees suits them well, with plenty of light and ventilation and lightly shaded. All the plants quoted below are nice healthy plants, with from two to four growths.

	Each
Cypripedium albo purpureum	\$10 00
C. Arthurianum	3 00

VILLA NOVA, PA., Dec. 18, 1901.

MESSRS. LAGER & HURRELL,

Dear Sirs:—I send you with much satisfaction herewith enclosed check for amount of your invoice. Plants were duly received and arrived in good order, and one of those billed "in spike" is already in lovely bloom.

Yours truly,

F. W. MORRIS.

HACKENSACK, N. J., Aug. 2d, 1901.

MESSRS. LAGER & HURRELL, Summit, N. J.,

Dear Sirs:—It is with pleasure that I learn that you have just received a new importation of *Cattleya gigas*. I have had the pleasure of blooming from your last importation a number of hybrids, amongst them half-dozen *C. Hardyana*. You may send me six cases at your earliest convenience. I should be glad to have more had I the room. As it is, I will have to sacrifice some plants to make room for the above order.

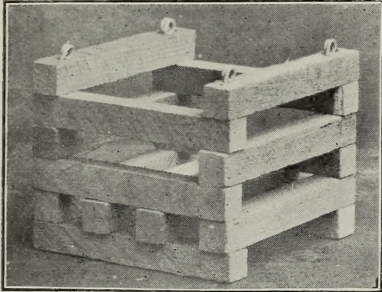

Yours very truly,

CLEMENT MOORE.

Our general Price List and Special Lists of established and imported Orchids, which we issue from time to time, may be had on application.

MILWAUKEE, WIS., Dec. 17, 1901.

LAGER & HURRELL, Summit, N. J.,

Gentlemen:—Your shipment of Dec. 2 arrived on time, and, as usual, was entirely satisfactory.

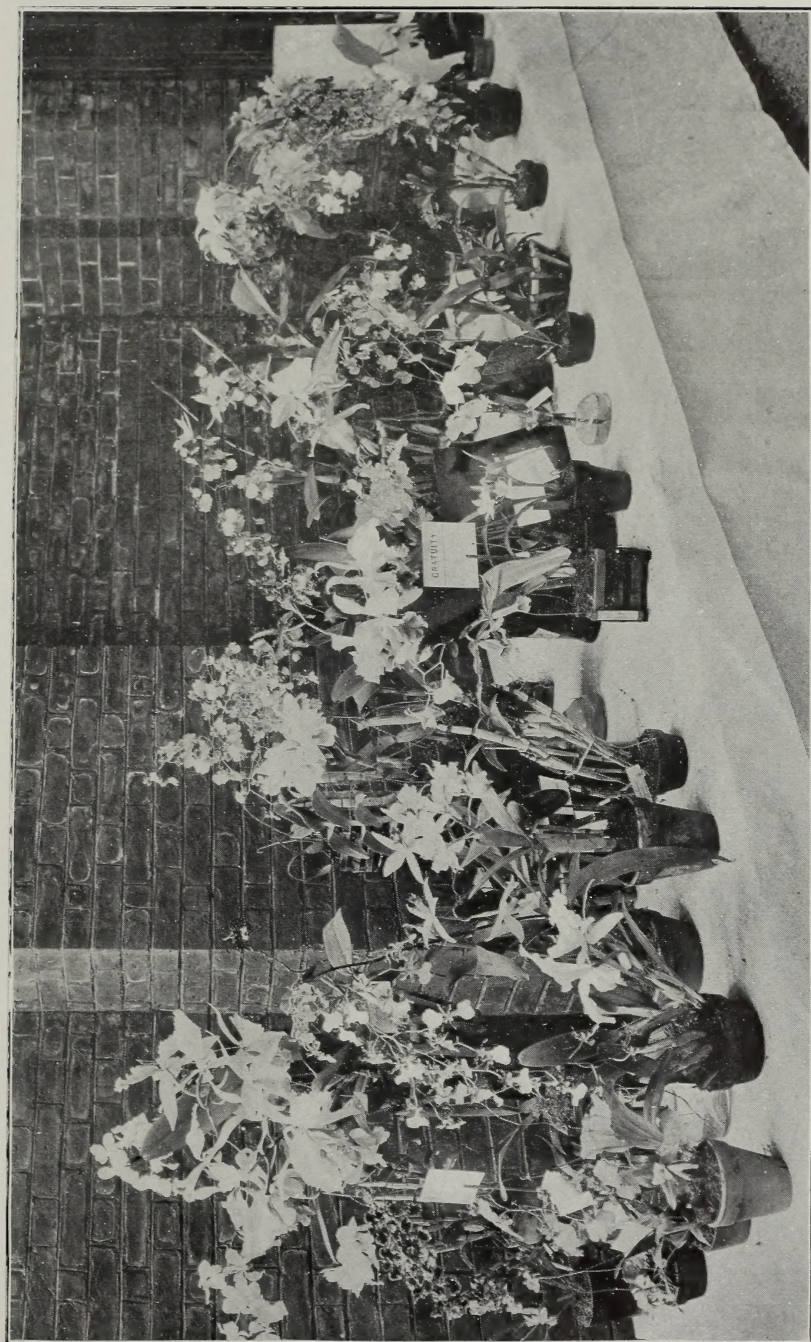

Yours,

C. B. WHITNALL.

In addition to the plants listed in this Catalogue, we have always on hand a number of fine varieties which crop up from time to time, including a number of **Seedling Orchids** from fine crosses. Of the latter we have a special list which may be had upon application.

Estimates will be furnished on large quantities of Orchids, for stocking conservatories or greenhouses in any part of the country.

We have always a number of applications on our books from competent **Gardeners and Orchid Growers** whom we can recommend to parties requiring the service of such men.

OUR EXHIBIT AT HORTICULTURAL HALL, BOSTON, MASS., NOVEMBER, 1901.

LAELIA ANCEPS

See page 22
